"Every great dream begins with a dreamer. Always remember, you have within you the strength, the patience, and the passion to reach for the stars to change the world."

Dear Parents/Guardians,

Greetings from St. Joseph's High School!

The government of India introduced a new policy to globalize education. It is based on the foundational pillars of Access, Quality, Equity, Affordability and Accountability. It aims for the holistic development of students by equipping them with vital 21st-century skills, reducing curricular content to improve essential learning and critical thinking and emphasizing experiential learning. As per the new National Education Policy, students will have 'bag-less classes' for 10 days every year. There are various benefits of bag-less days. Students get an insight into the outside world and develop a sharp sense of observation. No burden of a school bag means more emphasis on learning by doing, which is the best form of teaching. Students are involved in role-play, storytelling, projects, dance, music, art, games and sports, etc. It is the need of the hour to make the best use of the education-friendly concept of bag-less days. In view of the same, the School Management has decided to have a FUN WEEK for the students of classes LKG to IX after their final examination.
