**Subject: English**

**Class: VIII**

**Que1. Informal Letter**

a) Write a letter to your cousin for telling him/her about Harmful Effect of Junk Food.

Phase 3

Model Town

Bathinda

14th February, 2024

Dear ABC

I am good and hearty here and I hope to be the same from you. In your letter, you talked about your worries for not keeping good health.

You have also pointed out that most of the time of the day you are away from home. I remember you generally avoid homemade food and you are very fond of eating outside. This is your carelessness about your health. The homemade food which is always good for health but you avoid it. The outside food you enjoy the most but it is not good for your health. Its quality, its preparation, the material used, are all substandard because the seller's profits are rated high. Sub quality food will, of course, harm your body. You can't keep fit.

My sincere advice to you is to avoid eating outside food. Always eat homemade food. Carry your lunch with you. I guarantee you will develop sound health. Please convey my compliments to uncle and aunt and love to Pooja.

Yours truly

XYZ

**Q2. Write a letter to your friend for inviting him to spend a Sunday with your family.**
